# INDEX

ADRENALIN chloride, effect on blood pressure and heart rate of Bufo marinus, 299.
Alpha particles, changes in susceptibility to, Drosophila eggs, 348.
Amoeba proteus, rate of locomotion and form, 418.
Amphioxides from Bermuda, 321.
Ancistruma Strand, structure and division, 1.
ANDERSON, BERTRIL GOTTFRID. Regeneration in the carapace of Daphnia magna. I. The relation between the amount of regeneration and the area of the wound during single adult instars, 70.

BACTERIA, in sea water and sea bottom of Gulf of Maine, 183.
BAILEY, RALPH J. The ovarian cycle in the viviparous teleost Xiphophorus helleri, 206.
Balanus crenatus, life-history, 432.
BALL, ERIC G. Hemolytic action of silver occurring as an impurity in chemically pure sodium chloride, 277.
BEAMS, H. W., and R. L. KING. The intracellular canaliculi of the pharyngeal glands of the honeybee, 309.
BELTRAN, ENRIQUE. Gruberia Calkinsi sp. nov., a brackish-water ciliate (Protozoa, Heterotrichida) from Woods Hole, Massachusetts, 21.
Blood, oxygen-hemoglobin equilibrium, of fishes, 383.
—— pressure, Bufo marinus, as affected by adrenalin chloride and toad venom, 299.
——, relative numbers of immature erythrocytes in, of marine fishes, 33.
BRADLEY, HELEN T. *See* Noble and Bradley, 289.
BROOKS, S. C. Selective accumulation of ions in cavities incompletely surrounded by protoplasm, 67.
Bufo marinus, effect of adrenalin chloride and toad venom on blood pressure and heart rate, 299.

CANALICULI, intracellular, of pharyngeal glands of honey-bee, 309.
CAREY, C. L. *See* Waksman, Reuszer, Carey, Hotchkiss, and Renn, 183.
CARTER, JEANETTE S. *See* Kepner, Carter, and Hess, 405.
Centrifuged eggs of sea urchin, development of parts, 125.
Cercariaeum Lintoni Miller and Northup, metacercarial development, 262.
CHAO, IPING. Action of electrolytes on the dorsal median nerve cord of the Limulus heart, 358.
Chemistry of waters of Gulf of Maine, 149.
Chlorohydra viridissimi, growth of nucleus in developing egg, 103.
Chromatophore activator, crustacean, action on melanophores of fishes and amphibians, 226.
—— ——, humoral, among marine crustaceans, 28.
Color changes in Fundulus after hypophysectomy, 315.
Corpuscles, colored, marine invertebrates, supravital studies, 233.

DAPHNIA magna, regeneration in carapace, 70.
DAWSON, ALDEN B. Supravital studies on the colored corpuscles of several marine invertebrates, 233.
——, —— ——. The relative numbers of immature erythrocytes in the circulating blood of several species of marine fishes, 33.
Drosophila eggs, changes in susceptibility to alpha particles, 348.

ELECTROLYTES, action on dorsal median nerve cord of Limulus heart, 358.
Erythrocytes, immature, relative numbers in circulating blood marine fishes, 33.
Euplotes, external fibrillar system of, 53.

FUNDULUS chorion, ion effects on ion permeability, 114.
——, color changes after hypophysectomy, 315.

GEOTROPISM, in Thyone briareus, 326.
GOLDSCHMIDT, RICHARD. A note on Amphioxides from Bermuda based on Dr. W. Beebe's collections, 321.
GRAN, H. H. Studies on the biology and chemistry of the Gulf of Maine. II. Distribution of phytoplankton in August 1932, 159.
GREEN, ARDA A., and ALFRED C. REDFIELD. On the respiratory function of the blood of the porpoise, 44.
——, — —, and RAYMOND W. ROOT. The equilibrium between hemoglobin and oxygen in the blood of certain fishes, 383.
Gruberia Calkinsi, sp. nov., brackish-water ciliate, 21.
Gulf of Maine, chemistry of waters, 149.
—— — ——, bacteriological studies, 183.
—— — ——, phytoplankton, abundance and distribution, 159.

HARVEY, ETHEL BROWNE. Development of the parts of sea urchin eggs separated by centrifugal force, 125.
Heart, Limulus, action of electrolytes on dorsal median nerve cord, 358.
Heart-beat reversal, orders of insects with, 424.
Heart-rate, Bufo marinus, as affected by adrenalin chloride and toad venom, 299.
Hemidactylus Brookii, relation of thyroid and hypophysis to molting, 289.
Hemoglobin and oxygen, equilibrium between, in blood of fishes, 383.
Hemolytic action of silver, in chemically pure sodium chloride, 277.
HENSHAW, C. T. *See* Henshaw and Henshaw, 348.
HENSHAW, PAUL S., and C. T. HENSHAW. Changes in susceptibility of Drosophila eggs to alpha particles, 348.
HERRICK, EARL H. The structure of epidermal melanophores in frog tadpoles, 304.
HERZ, LUDWIG. Life-history of Balanus crenatus, 432.
HESS, M. *See* Kepner, Carter, and Hess, 405.
Honeybee, intracellular canaliculi of pharyngeal glands, 309.
HOTCHKISS, M. *See* Waksman, Reuszer, Carey, Hotchkiss, and Renn, 183.
Humoral chromatophore activator, occurrence among marine crustaceans, 28.
Humus, marine, abundance, in bottom of Gulf of Maine, 183.
Hydra, everted, regeneration in, 253.
——, mitosis in ectodermal epitheliomuscular cells, 86.
——, mitosis of secretory cells of endoderm, 96.
Hydras, reactions after ingestion of one by the other, 259.
Hypophysectomy, color changes following, in Fundulus, 315.

INGESTION, of one hydra by another, 259.
Insects, orders with heart-beat reversal, 424.
Ion permeability, ion effects on, of Fundulus chorion, 114.
Ions, selective accumulation, in cavities incompletely surrounded by protoplasm, 67.

KEPNER, WILLIAM A., JEANETTE S. CARTER, and M. HESS. Observations upon Stenostomum œsophagium, 405.
KIDDER, GEORGE W. On the genus Ancistruma Strand (Ancistrum Maupas). I. The structure and division of A. mytili Quenn. and A. isseli Kahl, 1.
KING, R. L. *See* Beams and King, 309.
KROPP, BENJAMIN, and EARLE B. PERKINS. The action of the crustacean chromatophore activator on the melanophores of fishes and amphibians, 226.
——, —, — —— — ——. The occurrence of the humoral chromatophore activator among marine crustaceans, 28.

LIFE-HISTORY, Balanus crenatus, 432.
Limulus heart, action of electrolytes on dorsal median nerve cord, 358.
—— polyphemus, mating in, 243.
Locomotion, rate, and form in Amœba proteus, 418.
LUTZ, BRENTON R. The effect of adrenalin chloride and toad venom on the blood pressure and heart rate of the tropical toad, Bufo marinus, 299.

MATING, in Limulus polyphemus, 243.
MATTHEWS, SAMUEL A. Color changes in Fundulus after hypophysectomy, 315.
MCCONNELL, CARL H. Mitosis in Hydra. Mitosis in the ectodermal epithelio-muscular cells of Hydra, 86.
——, — —. Mitosis in Hydra. Mitosis of the secretory cells of the endoderm of Hydra, 96.
——, — —. The growth of the nucleus in the developing egg of Chlorohydra viridissimi, 103.
Melanophores, epidermal, structure of, in frog tadpoles, 304.
——, fishes and amphibians, effect of crustacean chromatophore activator, 226.
METZ, C. W. Monocentric mitosis with segregation of chromosomes in Sciara and its bearing on the mechanism of mitosis, 333.
Mitosis, in ectodermal epithelio-muscular cells of Hydra, 86.
——, monocentric, in Sciara, 333.
——, of secretory cells of endoderm of Hydra, 96.
Molting, in lizard, relation of thyroid and hypophysis to, 289.

NEUROMOTOR apparatus of Euplotes, 53.
Nitrate, in Gulf of Maine waters, 149.
Nitrate-forming and reducing bacteria, in sea bottom Gulf of Maine, 183.
Nitrite, in Gulf of Maine waters, 149.
Nitrogen-fixing bacteria in Gulf of Maine, 183.
NOBLE, G. K., and HELEN T. BRADLEY. The relation of the thyroid and the hypophysis to the molting process in the lizard, Hemidactylus Brookii, 289.
Nucleus, growth of, in developing egg of Chlorohydra viridissimi, 103.

OVARIAN cycle in Xiphophorus helleri, 206.
Oxygen-hemoglobin equilibrium, in blood of fishes, 383.
——, in Gulf of Maine waters, 149.

PERKINS, EARLE B. *See* Kropp and Perkins, 28.
——, ——. *See* Kropp and Perkins, 226.
Pharyngeal glands, intracellular canaliculi of, in honeybee, 309.
Phosphate, in Gulf of Maine waters, 149.
Phytoplankton, abundance and distribution in Gulf of Maine waters, 159.
PICKENS, ANDREW L. Reactions of two hydras, one of which has been ingested by the other, 259.
PITTS, ROBERT F. The relation between rate of locomotion and form in Amœba proteus, 418.
POMERAT, CHARLES MARC. Mating in Limulus polyphemus, 243.
Porpoise blood, respiratory function, 44.

RAKESTRAW, NORRIS W. Studies on the biology and chemistry of the Gulf of Maine. I. Chemistry of the waters of the Gulf of Maine in August, 1932, 149.
REDFIELD, ALFRED C. *See* Green and Redfield, 44.
Regeneration in carapace of Daphnia magna, 70.
—— in everted Hydra, 253.
RENN, C. E. *See* Waksman, Reuszer, Carey, Hotchkiss, and Renn, 183.
Respiratory function of blood of porpoise, 44.
REUSZER, H. W. *See* Waksman, Reuszer, Carey, Hotchkiss, and Renn, 183.
ROUDABUSH, ROBERT L. Phenomenon of regeneration in everted Hydra, 253.

SCIARA, monocentric mitosis in, 333.
Sea urchin eggs, development of parts separated by centrifugal force, 125.

SHAW, C. RUTH. Observations on Cercariæum lintoni Miller and Northup and its metacercarial development, 262.
Silver, hemolytic action, in chemically pure sodium chloride, 277.
Stenostomum œsophagium, 405.
STIER, T. J. B. Diurnal changes in activities and geotropism in Thyone briareus, 326.
SUMWALT, MARGARET. Ion effects upon ion permeability of the Fundulus chorion, 114.

THYONE briareus, diurnal changes in activities and geotropism, 326.
Thyroid and hypophysis, relation to molting in lizard, 289.
Toad venom, effect on blood pressure and heart rate of Bufo marinus, 299.
TURNER, JOHN P. The external fibrillar system of Euplotes with notes on the neuromotor apparatus, 53.

WAKSMAN, SELMAN A., H. REUSZER, C. L. CAREY, M. HOTCHKISS, and C. E. RENN. Studies on the biology and chemistry of the Gulf of Maine. III. Bacteriological investigations of the sea water and marine bottoms, 183.

XIPHOPHORUS helleri, ovarian cycle in, 206.
